French: A2

Introduction

I'm a self-taught **front-end developer** with a passion for creating clean, responsive, and user-friendly interfaces.

I work primarily with **JavaScript**, **HTML**, and **CSS**. As well as popular frameworks and libraries such as **Chart.JS** and **React**.

Currently, I'm focused on expanding my **React** skillset while exploring backend technologies such as **Node.JS** and **Express**.

Skills

- **HTML** - semantic, accessible, clean structure
- **CSS** - modern layouts (Flexbox, Grid), animations, responsiveness
- **JavaScript** - DOM manipulation, async logic, clean structure
- **React** - component-based UI, hooks, props/state logic
- **Python** - scripting, automation, problem-solving logic
- **Git** - version control, branching, GitHub workflows

Projects

● Vanilla Project

A responsive, modular front-end banking interface built with **HTML**, **CSS**, and **JavaScript**. [Live Demo](#)

● Invoice Management App

Work in progress. A **React** based application designed to help freelancers and small businesses manage clients and generate invoices easily.
